

Assignment #1

THE BIG IDEA

What to shoot?

Individually, you need to shoot 20-25 images for this assignment. These images should be different versions illustrating the same concept.

Really think about your composition when you're shooting. Rules of thirds is a must ... avoid centering your subject. Review the articles, if necessary. Be sure to consider lighting, mood, techniques, symbols, anything to get your message across to your audience.

The camera should be set on manual settings:

manual mode

you will decide on the shutter speed, aperture and ISO that best suits your available lighting

All images should be cleaned up and color corrected.
