

Assignment #1

WHAT'S YOUR FOTUNE?!

What to shoot?

Individually, you need to shoot at least 10 images ...

Your subject is the fortune cookie/fortune/wrapper that you have chosen. Photograph this subject in an interesting way.

For this technical shoot, I am looking specifically at technique, exposure, composition, and perspective.

The camera should be set on **manual** mode. Choose the appropriate shutter speed and f-stop to take the images with the correct exposure.

Choose the best 3 ... clean them up and color correct them (using levels and curves in Photoshp). Do NOT manipulate them.

What to turn in?

Post the best 3 on the BLOG

Where to turn in?

Brainstorm

On a sheet of paper, complete the four step brainstorm process **BEFORE** shooting for this assignment.

Brainstorm the roles and relationships within your family. As well, think about what kind of lighting best fits (bright/happy, dramatic, nostalgic, etc).

1. **list everything** and **anything** you know about the subject
2. **cross out** entries on the list that won't work
3. **circle 3 or 4** entries that you are interested in
4. **sketch** thumbnails of possible shots and composition
