

Assignment #1 STREET PHOTOGRAPHY

What to shoot?

Individually, you need to shoot 25 to 30 images ... walk down your street or a street nearby, and photograph what you see. Begin to think about composition ... what's your subject? Where is it within your frame? What else is going?

As you are composing your photographs, pay attention to the background. Keep your backgrounds simple ... uncluttered. This will allow the viewer's attention to be focused on the subject.

The camera should be set on manual settings:

manual mode

you will decide on the shutter speed, aperture and ISO that best suits your available lighting

****You will need to shoot all of these photographs outside with this setting.***

What to turn in?

25 to 30 images in one folder labeled "lastname_streetphoto"

Where to turn in?

Drop Box

Research SOCIAL IMPACT

Using the internet, research the social impact of the digital camera and/or digital photography. As well, think about what this means to you. In Word, write a summary of your findings, adding in your personal beliefs. This summary should be at least 250 words in length. Name the entry "lastname_socialimpact" and save it to the Drop Box.
