

Advanced Placement Practice Exams

Georgia Virtual School is please to offer students in Georgia access to Advanced Placement Practice Exams to help them prepare for the College Board AP® exams administered in May of each year.

The questions on these Practice Exams were written by Georgia AP® teachers in the same style and format as those found on the real AP® exams. Each exam has a multiple choice and a free-response section set to the actual time allowed by the College Board. Students receive feedback on the questions and may take the exams as many times as they wish.

Additionally the Practice Exams have flashcards students can use to practice key vocabulary terms as well as hints and strategies for tackling the multiple choice and free response sections.

Students who enrolled in GAVS AP® courses Fall 2008 and Spring 2009 with a practice exam will not need to register for them. The practice exams will be available to them through their GAVS course(s).

Registering for the Practice Exams

Beginning March 1, students will be able to register for the Advanced Placement Practice Exams at the Georgia Virtual School website: www.gavirtualschool.org.

Once on the home page, click on the link at the top that says Registration.

Students who do not already have a Georgia Virtual School account should create a log in by choosing the option to create a GAVS account.

Students who have already created a GAVS account previously, may skip this step. Students who cannot remember their passwords, may do so by clicking the link Forgot Password?

The screenshot shows the Georgia Virtual School Registration Information page in Mozilla Firefox. The browser's address bar displays the URL: <http://gavirtualschool.org/Registration/tabid/325/Default.aspx>. The page features the Georgia Department of Education logo and a navigation menu with links: Home, About Us, Courses, Registration, FAQ, Careers, and Contact Us. The 'Registration' link is highlighted, and a sub-menu shows 'Registration Steps', 'Register', and 'Dates and Sessions'. A banner image on the right shows a young woman with the text 'Improving student achievement. Georgia Department of Education'. On the left, an 'Important Information and Links' sidebar lists: Register for Courses, Summer 2008, Fall 2008 - Spring 2009, Demo Course, Is Online Learning for Me?, Home School Students, Support Team, GADOE Credit Recovery Program, Middle School, and AP Practice Exams. The main content area contains a paragraph: 'If you already have a GAVS account, login with your username and password to proceed. If you are new to GA Virtual School and its related programs, please read the rest of the information on this page before you proceed with the account creation process.' Below this are three sections: 'Registration Steps' (a three-part process: View the Demo Course, Take the self assessment survey, Create a GAVS account), 'Registration for GAVS' (describing state-funded courses and enrollment requirements), and 'Registration Dates' (stating registration is open for the Spring 2008 traditional session starting January 7).

If you already have a GAVS account, login with your username and password to proceed. If you are new to GA Virtual School and its related programs, please read the rest of the information on this page before you proceed with the account creation process.

Registration Steps

Registration is a simple three part process:

- View the Demo Course.
- Take the self assessment survey.
- Create a GAVS account.

Registration for GAVS

Georgia Virtual School offers state-funded courses to Georgia students as a part of their regular school day. Students can take up to one Carnegie unit of courses as a part of their regular school day. However, space is limited and local approvers must approve classes before students are enrolled in courses. For public and private school students, local approvers are located within their schools. For home school students, a GAVS facilitator acts as the local approver. Approvers are prompted via email to approve their students.

In addition, GA Virtual School offers a tuition-based after school and summer program. Students may take courses each semester outside of their school schedule. Courses cost \$300 per 1/2 Carnegie unit. As with the state funded program, local approvers must approve classes before students are enrolled in the class. Also students will be placed in their classes only after payment has been received.

Registration Dates

Registration is currently open for the Spring 2008 traditional (session 1) session for all students. Spring students will have access to classes beginning January 7.

Enrollment space in GAVS courses is based upon availability of teachers and course materials. Therefore many courses have an enrollment limit.

Register for Courses
Summer 2009
Fall 2008 - Spring 2009
Demo Course
Is Online Learning for Me?
Home School Students
Support Team
GADOE Credit Recovery Program
Middle School

The actual registration process is simple:

- Create an account by choosing this option in the login box to the left.
- Verify your email address. GAVS requires that you have a valid email address to create an account. You will be sent an email that you will have to respond to for verification of this.
- Login and apply for classes.
- After you apply for classes, your facilitator (local school approver) will be notified and asked to approve your course.

You must be approved by your local school in order to participate in GAVS courses. If you ever have any questions about your registration status, just login to view your current status. Also feel free to contact your local school facilitator (contact information is listed on your login portal page).

Personal Information

When entering your information, make sure to use your official information. This would be the official information located on your birth certificate, etc. Do not use nicknames or abbreviations. If any of your information has any punctuation (such as an apostrophe) in it, please use a space instead.

First Name:
Middle:
Last Name:
Name you Go By:
Do you have a valid Social Security Number? ☐ Yes ☐ No
Due to a recent policy change if you do not have a valid Social Security Number, please contact us at registration@gavirtualschool.org.
Date of Birth: / /
Address:
City:
State:
Zip:
County of:

Students should click the link that says Create an Account on the log in box.

Then complete the information on the form. They will need to verify their email address. Be sure they enter it correctly, check their email, and then come back to the website and log in again.

Registering for the AP® Practice Exam

Once students have verified their email addresses by logging back into their accounts, beginning on March 1, they should choose the last option:

- Enrolling in an AP Practice Course

Then they will be directed to choose from the following 10 subject-area practice exams.

AP Computer Science A

AP English Language

AP Calculus AB

AP Macroeconomics

AP Psychology

AP US Government

AP US History

AP World History

AP Chemistry

AP Physics B

Students may register for more than one subject area practice exam. Once students register it takes 24-48 hours for them to be moved to their practice exam.

Credit Recovery Students: There is no orientation to complete. After you are enrolled, within 24-48 hours, you can choose "going to class" and see Credit Recovery class (be sure to click any + signs you see).

(Attempting to access your course before you have been moved will result in an error message.)

Frequently Asked Questions

Will teachers be able to access the AP[®] Practice Exams?

Regretfully teachers cannot create logins to access the AP[®] practice exams. There are a very limited number of spaces and we have reserved all of these for student use. However, students are free to show teachers the resources they are using in their practice course.

How long will students have access to the materials?

Students will be able to access their Practice Exams from March 1st through May 30th. Students will need to wait 24-48 hours after they register to gain access to their practice exam.

Do all the resources need to be used in one sitting?

No. Students will have access to all the features through May 30. Students may take the practice exams more than one time. Each time a student takes a section of the practice exam, the questions and answer choices will be randomly shuffled to a new order.

Will students receive a grade or a score on the practice exam?

Students will learn which questions they answered correctly and which ones they missed. Each question has detailed feedback to help students understand why the right answer choice is correct. Students will see a percentage of the questions they answered correctly but their score is not calculated to account for the ¼ point penalty assessed by College Board for wrong answers.

What if students need help while using the AP[®] Practice Exams?

Students should email apppractice@gavirtualschool.org if they need assistance or to provide feedback on the AP[®] Practice Exams.
